§ 773.12 Permit eligibility determination.

Based on the reviews required under §§ 773.9 through 773.11 of this part, we, the regulatory authority, will determine whether you, the applicant, are eligible for a permit under section 510(c) of the Act.

(a) Except as provided in §§ 773.13 and 773.14 of this part, you are not eligible for a permit if we find that any surface coal mining operation that—

(1) You directly own or control has an unabated or uncorrected violation; or

(2) You or your operator indirectly control has an unabated or uncorrected violation and your control was established or the violation was cited after November 2, 1988.

(b) We will not issue you a permit if you or your operator are permanently ineligible to receive a permit under § 774.11(c) of this subchapter.

(c) After we approve your permit under § 773.15 of this part, we will not issue the permit until you comply with the information update and certification requirement of § 778.9(d) of this subchapter. After you complete that requirement, we will again request a compliance history report from AVS to determine if there are any unabated or uncorrected violations which affect your permit eligibility under paragraphs (a) and (b) of this section. We will request this report no more than five business days before permit issuance under § 773.19 of this part.

(d) If you are ineligible for a permit under this section, we will send you written notification of our decision. The notice will tell you why you are ineligible and include notice of your appeal rights under part 775 of this sub-

chapter and 43 CFR 4.1360 through 4.1369.

§ 773.13 Unanticipated events or conditions at remining sites.

(a) You, the applicant, are eligible for a permit under § 773.12 if an unabated violation—

(1) Occurred after October 24, 1992; and

(2) Resulted from an unanticipated event or condition at a surface coal mining and reclamation operation on lands that are eligible for remining under a permit that was held by the person applying for the new permit.

(1) Arose after permit issuance;

(2) Was related to prior mining; and

(3) Was not identified in the permit application.

(4) The violation is the subject of a good faith administrative or judicial appeal contesting the validity of the violation, unless there is an initial judicial decision affirming the violation and that decision remains in force.
